LENOVO CELEBRATES 20 YEARS OF THINKPAD INNOVATION.

Few technology brands withstand the test of time. Even fewer grow better by the year while retaining the heart and soul that made them an icon. Over the past 20 years, thousands of carefully thought-out designs and engineering decisions have come together to deliver the power, strength and versatility our customers have come to expect.

THINKPAD MILESTONES

1984
IBM® introduces its first portable PC.

1986
IBM introduces its first laptop, the PC convertible.

1992
IBM introduces ThinkPad 700c, the industry's first laptop with a thin film transistor display.

1993
ThinkPad 750c is the first ThinkPad to reach outer space on a NASA mission.

1994
ThinkPad 755cd becomes the industry's first laptop with an integrated CD-ROM.

1995
ThinkPad 701c revolutionises keyboard design with the 'butterfly keyboard'.

1997
ThinkPad 770 becomes the industry's first laptop to feature a built-in DVD-ROM.

1999
ThinkPad 570 becomes the industry's first laptop to feature a removable UltraBase™.

2000
The 10 millionth ThinkPad is bought. ThinkPad I Series laptops become the industry's first laptops with built-in wireless capabilities.

2001
ThinkPad becomes the industry's first TCPA-certified laptop to feature an embedded security chip.

2003
ThinkPad is the industry's first laptop with Active Protection System™ to protect the hard disk drive from impact.

2004
ThinkPad becomes the first laptop to feature a built-in fingerprint reader.

2005
Lenovo aquires IBM's Personal Computing Division.

2006
Lenovo introduces ThinkPad X41, the thinnest, lightest and most secure ThinkPad Tablet.

2007
ThinkPad celebrates its 15th anniversary.

2008
Lenovo introduces ThinkPad X300, the thinnest and lightest fully-functional 13" laptop.

2009
ThinkPad W700ds becomes the industry's first dual-screen mobile workstation.

2010
The 60 millionth ThinkPad is bought.

2011
Lenovo launches ThinkPad Tablet 1, an Android™-based tablet with media, security and management tools for business professionals.

2012
Launch of ThinkPad Tablet 2, the first tablet designed for Windows 8.

2012
Lenovo unveils ThinkPad X1 Carbon, the world's lightest 14" Ultrabook™. ThinkPad turns 20 years old, celebrating two decades of technology design and innovation success.

20 ThinkPad
20 YEARS OF INNOVATION

lenovo FOR THOSE WHO DO.™

LENOVO THINKPAD TABLET 2

POWERED BY INTEL® – COMPATIBLE. PORTABLE. UNSTOPPABLE.

The new ThinkPad Tablet 2 powered by Intel® with Windows 8 is compatible with your x86 traditional applications, peripherals, and drivers. At last a tablet that will seamlessly integrate into your computing environment. Everything will just work. With power and compatibility like this, the only thing more amazing than Intel® technology is what your users will do with it.

Have a look at the new Lenovo ThinkPad Tablet 2 on page 16.

NEW THINKPAD TWIST ULTRABOOK™ CONVERTIBLE FOR BUSINESS:

Ultra sleek. Ultra fast. Ultra responsive.

The new ThinkPad Twist Ultrabook™ convertible is the best possible experience for business. Loaded with the best blend of durability, this laptop is ultra sleek, ultra fast, ultra responsive and does not compromise on anything. Moreover, the 4 usage modes give you the ability to consume and create.

ThinkPad Twist Ultrabook™ convertible features:

- Powered by the 3rd generation Intel® Core™ i7 processor with Intel® Small Business Advantage
- Windows 8 Pro
- Thin and light – only 20mm thin and weighs only 1.58kg
- 12.5" high-definition multitouch display for extra bright, wide viewing angle and highly captivating multitouch experience
- Full connectivity – USB, HDMI, DisplayPort, card reader, Ethernet

Full PC functionality and built-in IT support now come in a new slim device with Lenovo Solution for Small Business (LSSB) package, based on the 3rd generation Intel® Core™ processor with Intel® Small Business Advantage.[1]

THINKPAD X1 CARBON ULTRABOOK™

ULTRA SECURE. ULTRA SLEEK. ULTRABOOK™. INSPIRED BY INTEL.

Introducing the ThinkPad X1 Carbon with 3rd generation Intel® Core™ vPro™ processor, the ultra secure, ultra sleek Ultrabook™, a new business-class device that is less than an inch thick, wakes up in a flash and runs for hours, perfect for your most seasoned travellers.[1,2] And since it's based on the 3rd generation Intel® Core™ vPro™ processor, you'll get embedded security that helps keep threats out, user identities and credentials safe, and clients and data protected.

[1]Built-in Security: No computer system can provide absolute security under all conditions. Built-in security features available on select Intel® Core™ processors may require additional software, hardware, services and/or an Internet connection. Results may vary depending upon configuration. Consult your PC manufacturer for more details. For more information visit www.intel.com/technology/security. [2]Intel® Rapid Start Technology: Requires select Intel® processor, Intel® software and BIOS update, and Intel® Solid-State Drive (SSD). Depending on system configuration, your results may vary. Contact your system manufacturer for more information.

Lenovo® recommends Windows 8 Pro.

lenovo® FOR THOSE WHO DO.™

Note: 1. Cashback on selected TopSeller models. Terms and conditions apply. Log on to www.lenovo-promotions.com for details.
Lenovo reserves the right to alter product offerings and specifications at any time without notice. Models pictured are for illustration purposes only. Lenovo is not responsible for photographic or typographic errors. Information advertised has no contractual effect. Lenovo estimated selling price, correct at time of going to print. Prices vary according to configuration. Prices and promotions valid for purchases made from participating resellers from 1st November to 31st December 2012. Prices exclude VAT, shipping and handling charges. Resellers set their own prices so resellers are free to offer higher discounts than any advertised and prices to end-users may vary. Promotions are for business customers only and are subject to availability. Promotions may be withdrawn or changed without prior notice. Services e-Pac is a service sold electronically, which is activated via an online registration process. Services Physical Pac is a hardcopy service available for purchase from resellers. Both are activated via an online registration process. Protection Service is not provided on-site even if the customer has purchased a Warranty Upgrade to on-site. The on-site upgrades only apply to hardware failure and never to accidental damages. Repairs connected with accidental/physical damages shall always be carried out at Lenovo authorised Service Provider (including AWSP) premises. Protection Service is not available in Israel. Service packages must be registered within 30 days of purchase. Warranty upgrades are not valid unless registered. Battery life (and recharge times) will vary based on many factors, including screen brightness, applications, features, power management, battery conditioning and other customer preferences.
